244	Do you have any additional feedback about this workshop? For example, what did you like best about it or how could it be improved?	• Very illuminating. Won't forget it. • Could not use the libguide to claim credit for the additional hour. The links went nowhere. Will try to work that out on my own now. • I feel that the workshop was trying to do too much at one time. Either we should have had a discussion on the topics with our colleagues, OR formulate questions for Dr. Noguera. Instead, we took notes on the discussions, but then had to post those notes on a board. When we went around the room to speak about what we discussed, we did so without our notes, because we posted them! The objective wasn't clear, and the organization wasn't helpful. Were those notes looked at or used for anything later? • He was wonderful! • Great session and inspiring speaker!

53	Optional Comments	• Just the right start to our semester. • It needed to be organized differently to make good use of our time and energy.
143	Optional comments	• Terrific speaker on a relevant topic. Connected directly to what we do. • See comments below.
149	Optional Comments	• Particularly about faculty connecting and sharing. • Our group did not stay on task as much as I would have liked. • It was helpful to discuss what good teaching looked like with my colleagues. We certainly need to have more discussions like that.
