Post-Convocation Breakout Session with UEI and Dr. Pedro Noguera	This workshop gave me information, strategies, or tools to use in my job.	Agree	It was helpful to discuss what good teaching looked like with my colleagues. We certainly need to have more discussions like that.

Post-Convocation Breakout Session with UEI and Dr. Pedro Noguera	Do you have any additional feedback about this workshop? For example, what did you like best about it or how could it be improved?	I feel that the workshop was trying to do too much at one time. Either we should have had a discussion on the topics with our colleagues, OR formulate questions for Dr. Noguera. Instead, we took notes on the discussions, but then had to post those notes on a board. When we went around the room to speak about what we discussed, we did so without our notes, because we posted them! The objective wasn't clear, and the organization wasn't helpful. Were those notes looked at or used for anything later?
