Strategic Plan timeline discussion:

Strategic Plan will be distributed to the COM Community by convocation. More work is needed for full alignment across some areas of the plan which will be completed over the summer.

Groups should not suspend or refrain from beginning work while the plan is being finalized.

Work to be done over the summer includes:

- Identifying co-champions for each focus area – these are the people who will be actually overseeing the day to day implementation of the action steps.
- Connecting the dots on the marketing/communication area. This area touches several other areas and work is needed to identify these areas and id areas of overlap.
- Alignment between College Services and Indian Valley Campus focus areas
- Vision for Success goals due to the chancellor's office by the end of May. We need to map EMP goals and other operational plan goals to these VfS goals for internal planning purposes.
- Technology: We need to take one more look to see if technology and tech plans need to be included in any current objectives / action steps
- Performance indicators: Holley will be working with co-champions to strengthen p.i.s and clarify measurability of some objectives. Holley will also be developing baseline data.
