- **Agenda** – Quorum not met so docs will be approved at next meeting or via email
- **Minutes** - Quorum not met so docs will be approved at next meeting or via email
- **Review of Flex-at-a-Glance for upcoming FLEX week** – Some movement in the schedule based on presentors availability. Flex-at-a-Glance and Flex descriptions will be circulated to presentors and administration for approval next week.
- **Review of additional proposals** – “Academic Freedom” and “Assessing Student Equity, Classroom Environment and Our Processes to Support Students” - better suited to Community Hour. “Academic Freedom”: Chair reached out to this presenter along with others that were identified as not specifically connected to the theme to request an updated proposal. All other presenters responded but Academic Freedom presenter did not, so session not included in spring Flex Week. “Assessing Student Equity” session is a duplicate session in title and description from fall Flex Week and the fall session was not overenrolled. Committee determined that this should not be offered in spring Flex Week to allow for other sessions to be held. Chair will reach out to both presenters to offer COMMunity Hour scheduling instead.

“Technology Strategies In and Out of the Classroom” – may not have a classroom available for this workshop

Next PLC meeting is January 28, 2020
