- Minutes approved

**GRC**

- Welcome to new student representative Gabby Hojilla
- Student Access and Success Committee is now and Ad-Hoc called IDEA; Yolanda will ask Jonathan Eldridge about this
- The SWAG committee was discussed; Strong Workforce Action Group is apparently trying to be folded under PRAC and the GRC should be in the know about this; Yolanda will reach out about their plan to present to PGS and if they plan on making this a permanent subcommittee
- Yolanda will ask Jonathan if he wants SWAG under PGS since this group is mainly funded by a CTE program
- Shawn explained the PGS system and said that it was the last stop before the College Council and he explained the student representative's role on GRC; problem solve, ask questions, recommend structure, give input through students' perspective

**Moving Forward**

- Shawn said we will do some kind of survey again
- GRC will develop a plan and procedure for what to do and how to hand off committee position to a new Chair of a committee
- Yolanda did not find any information from the State – List Serve on an existing discontinuance policy for committees. She will write something up
- Gabby will ask student governance what kinds of functioning of the governance as a whole are they part of and are they a part of what is happening? If not what are the hurdles that keep them from participating in the governance system? What can we do to get students on the committees?
