1. Approved Agenda
2. Approve Minutes from October 6, 2021
3. Discussion
 - a. PGS Survey for 2021:
 - i. Did a first reading of the results of PGS survey
 - ii. Comments that were highlighted in our discussion:
 - I find that student reps sometimes seem a little out of place. Perhaps, there could be a training for students who will serve on PGS committees or maybe there should be 2 students on committees, so there is always representation but also so they feel like they have an ally.
 - Increase the diversity on the committees. Rotate people on and off. Make sure all minutes and agenda are published on the website.
 - It's always hard to get people to get out of the weeds and not try to engage in management decision-making instead of providing bigger-picture, holistic guidance at the policy and planning level.
 - Keep the financial support behind them. They need their members to do a great job!
 - While the Technology planning committee has different voices at the table, it does not feel like any decisions we come to will matter or be implemented. There seems to be a disconnect between the empowerment of the committee and actual ability to make change, and the obligatory existence of the committee for filling a regulatory need.
