Program Review for the Biology Department

- Committee read through and discussed the Biology Department Program Review, noting concerning issues as well as promising practices and commendations. Concerns the Committee noted included the lower success and retention rates for Black and LatinX students across all biology courses. Of particular concern were the disparate success rates in Bio110, the pre-req for other biology courses. Among the Promising practices noted by the GRIT committee was the Community Event Partnership with Bayside Martin Luther King Jr. Academy.
