Hello,

The Institutional Equipment Committee (IEC) met on April 29, May 6, and May 13 to review 100 individual requests from 15 departments, totaling \$878,746.62. The available funding is \$250,000. As you can imagine the committee had to make difficult decisions, and based those decisions on their charge (<https://gov.marin.edu/iec>).

There were typically 3 reasons why requests were rejected:

1. Not enough information was provided
2. Did not meet priority, and/or was not prioritized
3. Did not fit within existing budget

The proposed requests to be funded will be presented to PRAC on **May 19**. If there are any questions or concerns, please direct questions to [Sarah Anderegg](#) and [Katy Bauer](#) and we can provide additional details upon request.

Thank you for your time and contributions to this process.
