---

Dear PRAC members,

I want to share with you a follow-up regarding:

- Greenhouse Repair computer control
  - The restricted lottery may be utilized as long as it is used within the classroom for instructional purposes only and not to pay for service costs.
- 3 Vans
  - According to the Ann Kennedy Group (AKG), our consultant for bond financial management and compliance, they have reviewed the situation with the bond counsel. Since we are now using the 4th and final series of the bond, which is "non-taxable," the requirements are not as strict. It is allowable to sell or trade the 3 vans as long as the sale proceeds are directed to a capital outlay fund or are used to trade for the same item. In summary, the proceeds may not be used for any other purposes. Let's wait for the official memo from AKG before taking any action to sell or trade.

Thanks.
