COLLEGE OF
MARIN

Digital Accessibility Workgroup (DAW)

Presentation to PRAC

Tuesday, September 22, 2020

DAW Charge

- Support the College in providing accessible Electronic and Information Technology (EIT) and Information Communication Technology (ICT);

- Identify areas for improvement and suggest solution approaches to the College;

- Inform the College on compliant practices for delivering accessible digital materials.

Composition & Membership

- Stormy C. Miller, Director of Student Accessibility Services
- Patrick Ekoue-totou, Chief Information Officer
- Shook Chung, Senior Creative Designer / Lead Web Designer
- Stacey Lince, Instructional Technologist
- Elle Dimopoulos, Assistive Technology Specialist of Student Accessibility Services
- Mina Namvar, Administrative Assistant to the Director of Information Technology

- Additional workgroup members from Online Learning, IT, or other departments will serve as subject matter experts

Current Landscape

Strengths	Weaknesses
• **Technological tools and resources** • **Policies** • **Training & technical assistance**	• **Wayfinding to resources** • **Lack of compliance**
Opportunities	**Threats**
• **Re-prioritization**	• **Auditing** • **Inequity in Access**

Our Work

Online Instruction - development of online content and procurement of accessibility resources to support faculty, staff, and students

Policies and Guidelines – new policies around ICT; web page designed to serve as an accessibility guide and resource (i.e., accessible social media; procurement; accessible instructional design)

Student Accessibility Services - training, technical assistance, and support to faculty and staff in the provision of accommodations.

Q&A - Thanks!
